The Chronicle.

PHRCOMMERCIAL AND FINANCIAL CHRONICLE is issued every Saturday morning, with the latest news up to midnight of Friday.

Mr. Alex. Holmes is our only travelling agent.

The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders.

A neat file for holding current numbers of the Chronicle is sold at the office for 30 cents. Volumes bound for subscribers at \$1.25. The first and second volumes of the Chronicle are wanted by the publishers.

OUR YEAR BOOK FOR 1871.

On the first of May we shall issue our Year Book, making a volume of about 500 pages, furnishing the most complete Annual of Commercial and Finan CIAL INFORMATION ever issued in the United States.

Les published of the same size and shape as the past volumes of "Hunt's Merchants' Magazine," and is designed to supply a compact volume, which will perpetuate annually all the important and useful statistics heretofore recorded in the pages of the magazine.

The following is a brief statement of the contents of this valuable work: STEEL PLATE ENGRAVING OF HIRAM WALBRIDGE.

The following is a brief statement of the contents of this valuable work:

STEEL PLATE ENGRAVING OF HIRAM WALBRIDGE.

CHAPTER I.—FINANCIAL REVIEW FOR 1870.

National Progress in Wealth; Report of the Secretary of the Treasury; Report of the Treasurer of the United States; Report of Commissioner of Internal Revenue; Internal Revenue; Internal Revenue; Internal Revenue; Internal Revenue Receipts for Three Years; Daily Price of Gold for Nine Years; Treasure Movement at New York for Twelve Years; Treasure Movement at San Francisco; Prices of Government Securities for Two Years; Course of the New York Stock Exchange, Five Years; Foreign Exchange Weekly, Four Years; Debt of the United States in Detail, with Acts; Director of the Mints' Report; Gold and Silver Coins in Different Countries; Receipts and Disbursements of United States since 1791; American Shipping and Foreign Commerce; Purchases by Government of United States Bonds.

CHAPTER II.—DEBT AND FINANCES OF EACH OF THE UNITED STATES.

General Review of the States Financially; Debt and Finances of Tennessee, Georgia, New York, New Jersey, Maine, New Hampshire, Massachuse is, Ohio, Maryland, North Carolina, Missouri, Kentucky, Connecticut, Minnesota, Vermont, Illinois, Rhode Island, Michigan, Pennsylvania, Mississippi, Alabama, Indiana, Louisiana, South Carolina, Virginia, Florida, California, Arkansas, Delaware, Nevada, Oregon, and Texas; Detailed Statement of State Bonds; Detailed Statement of City Bonds and Debts.

CHAPTER II.—DEBTER III.—BENKING.

The National Banking System; Comptroller of the Currency's Report; Totals of Quarterly Reports since 1863; New York Savings Banks; Clearing House Banks Three Years; European Money Markets.

Review of Railroads Progress in Europe and America for 1870; New York Railroads; Ohio Railroads; Massachusetts Railroads; Railroad Bonds in Detail.

CHAPTER V.—POPULATION, ETC.—RUROPE AND AMERICA.

European Progress in Wealth and Population; British Income Tax; France; Income and Resources; European Armies and Navies; Germany; Im

CHAPTER VI.—TRADE AND COMMERCE.

Review of the Year 1870; Mercantile Failures; Prices of Merchandise; New York, Foreign Trade of, for 1870; Statistics of Commerce and Navigation; Trade of the United States with Great Britain; Imports into the United States, Ceresla

Cereals.

CHAPTER VII.—COTTON.

Review of 1870 and Prospects for 1871; Crop of 1889-70; Crop of Cotton each Year since 1881; Weekly Receipts for Five Years; Manufacturers' Association Report for 1899-70; Average Factory Wages; Consumption in Europe.

LIMPTER VII.—COMMERCHAIR REPORTS.

Breadstuffs, Tobacco, Coal, Petroleum, Iron.

CHAPTER IX.—ACTS OF CONGRESS—A COMPLETE LIST.

CHAPTER X.—BIGGRAPHICAL.

Hiram Walbridge, Robert L., Maitland, Joseph Wesley Harper, James De Peyster Ogden, Henry A. Wilmerding, Abraham M. Bininger.

Price, \$5; on receipt of which sum it will be mailed free of postage to any part of the United States or Canada.

part of the United States or Canada. WILLIAM B. DANA & CO., Publishers, 79 and 81 William Street, New York.

THE PUBLIC CREDIT AND THE APPRECIATION OF

CURRENCY.

The quietude of the money market is being restored, and as the return flow of currency is setting in this way there is a fair prospect that permanent ease would supervene if the disturbing forces which caused the late stringency had not been in part artificial. But as there has been some locking up of currency, and as the tight money men have not accomplished much by their manoeuvres, there is some fear lest this clique of speculators may make another desperate effort to accomplish their purposes. The heavy engagement for shipping gold by the European steamer to-day and the recent drain of the legal tender reserve from the banks may possibly encourage some movement of this sort. The late activity and advance at the Stock Exchange increases the danger of such a contingency. Hence cautious, prudent men will for the present avoid being too sanguine, and will be circumspect and wary in their engagements for the immediate future. For the moment the state of the money market has had an unfavorable influence on the progress of the new loan. Mr. C. C. Norvell, the Government agent, informs us that the aggregate is 59 millions, and he is very sanguine that by the 1st of May, when the bonds are ready for delivery, the first 100 millions will be taken. If this should be so, the second 100 millions will probably go rapidly, especially as Mr. Boutwell says that when these 200 millions shall have been subscribed for there are to be no more Fives issued alone at par, but subscribers will be obliged to take equal amounts of 4, 41 and 5 per cent bonds. In this event the Fives will be worth a premium, and a considerable impetus will be given to the demand for them directly the public mind becomes satisfied that this programme will be carried out without delay.

And why should it not be successfully carried out? Nothing can be more certain than that a five per cent. long bond of the United States, principal and interest payable in gold, is worth more than par, even were there no exemption from taxation. Nothing has prevented our six per cents, from going far above the present quotations but the incertitude which has settled upon these securities, first

from the talk about repudiation; then from the expectation of early redemption; next from the projects for a forced exchange of these sixes for bonds at four per cent; and finally, from the foolish attempts of certain interested parties to stir up hostility and to foster irritation between this country and England, so as to produce an impression in foreign money markets hostile to our national credit and to the popularity of our bonds.

These and similar causes have disturbed the demand for our securities; and of course the Franco-Prussian war caused a sudden cessation of the new demand in one of our best European markets. But every such influence has ceased to operate to the prejudice of our bonds, and now there is no conceivable reason why our new fives should not go up above par. This being conceded the new loan is a bargain and all who buy the bonds at existing prices will make money by the operation.

Mr. Norvell has prepared some very interesting tables showing the progress of the war debt since it reached its maximum in July, 1865, almost six years ago. The principal of the debt was then 2,756 millions. In four years on the 1st of March, 1869, it fell to 2,491 millions, showing a reduction of 265 millions. Since March, 1869, the principal of the debt has fallen to 2,268 millions, showing a reduction of 223 millions more. By this it appears that in less than six years we have paid off no less than 488 millions of dollars, or half as much as the war indemnity the exaction of which from France has called down on Prussia so much of public reproof throughout Europe. Such a simple exhibition of the fiscal strength of our country which has twice paid off its debt is very timely, and does more to improve our credit in the money markets of the world than whole reams of ingenious argument or elaborate disquisition.

There is another series of facts set forth in Mr. Norvell's tables. We refer to those regarding the currency. In 1865, 1869, and 1871 the aggregate legal tenders outstanding were as follows:

CIRCULATING NOTES AFLOAT IN 1865, 1869 AND 1871.

| CIRCULATING NO | | 1865, 1869 AND 187 | 1. |
|---------------------|--|--|---|
| Greenbacks | 205,822,845 25,750,032 212,121,470 | March 1, 1869. \$3\$6,021,073 71,140,000 36,781,547 | April 1, 1871. \$356,098,621 53,493,000 40,340,445 |
| National bank notes | 131,452,158 | 292,457,098 | 313,000,000 |
| | \$1 048 261 304 | \$756 900 710 | Amon one one |

From these figures we observe that during the 4 years end ing 1st March, 1869, the volume of the currency fell from 1048 millions to 756 millions, or nearly one-third. During that period gold fell from 145 in July, 1865, to 131 in April 1869. From the latter date to the present time the gold premium has further declined to 110 although the currency has not declined but has, indeed, just begun to increase again. From these facts it might seem as if the volume of the greenback currency has little or nothing to do with the price of gold. Hence many persons have positively affirmed that there is no direct control exercised by the volume of the currency on its rates of depreciation. This inference is of course incorrect and arises from a misinterpretation of the facts. The law which regulates the value of an irredeemable currency sustained by the credit of a firm government is well established. Such a currency depreciates as the volume rises above the proper level and appreciates as its volume falls below that level. If, then, with a circulation of 1000 millions gold is at 150 it shows the proper currency level ought to be 666. Again, it with the level of 760 millions the premium is 110 the proper currency level would be 680 millions. In other words the country has expanded its business since 1865. It has built a Pacific railroad. It has added to the national wealth. It has increased its population. It requires more currency now than it did. And for practical purposes it amounts to

the same thing whether the demand for currency is increased or the supply is diminished; for the premium on gold is lowered by every change which brings the supply and demand nearer together. From this we see that two different influences have gone on together since 1865 which have tended to depress the price of gold. First, our paper currency has been appreciated by the contraction of its volume from 1,048 millions to 762 millions; and secondly, the field for the use of currency has been enlarged so that we now need 30 millions at least more than in 1865. The effect which this appreciation should legitimately exert on the public credit is too obvious to need proof.

GOVERNOR GEARY AND THE COAL STRIKES.

The proclamation of Governor Geary has been productive of the best results; and although it is open to grave objection in several important points, still it was evidently prepared with a view to the exigencies of the situation. The explosive elements of a general conflagration have been long accumulating among the miners under the leadership of men of great experience, cunning, and sagacity. If any further outbreak occurs the authorities will probably lose no time in securing the ringleaders, and in incarcerating without bail the men who are chiefly responsible for the strike, and for the vote which ordered it at the close of last year.

It is largely due to Governor Geary's prompt action that the troubles at Scranton, to which we referred last week, have not been extended. The men injured by the rioters are not dead, but are in a fair way for recovery. The strike itself is less popular, however, and the miners generally want to go to work. Every true friend of the workmen in this country will rejoice at this. The indications of returning subordination are increasing every day, but the coal strike has inflicted untold sufferings and losses on the people. If in any modern nation forty or fifty thousand operatives had for four months been without cause condemned to idleness by the command of some despotic sovereign, the whole world would have exclaimed against the outrage, and he would be in imminent danger of being hurled from his throne by a general uprising. Most of the Pennsylvania miners have families, and their numbers will aggregate 250 thousand persons, many of whom have been plunged into poverty, and now see starvation staring them in the face. Their frugal savings are spent, their credit is exhausted, they have gone into debt to the shopkeepers, who are now themselves on the verge of bankruptcy. One million of persons it is computed are directly dependent on the coal mining business for a livelihood, and 300 millions of capital is invested in this business in Pennsylvania alone. When the fiat was issued to strike last December the miners were evidently ill-advised. They overestimated their own strength and they underestimated the forces with which they had to cope.

These men are mostly immigrants, and have yet much progress to make before they will unlearn the mischievous lessons instilled into them in their European serfdom, and rise to the level of the privileges of freedom in the American Republic. We are in favor of giving these men good wages. They ought to earn the full value of their labor. But this labor is unskilled, or nearly so. After a year's experience as laborers, multitudes of them have become miners, with no further instruction or training; so little of skill and knowledge does their art demand. But unskilled workmen in no other occupation, agricultural or manufacturing, earn so large wages as miners in England or here, because of the greater risk and the more repulsive surroundings under which the miners work in the bowels of

the earth. The miners have their rights and we would not curtail them. Every miner has, for example, the undoubted privilege of setting his own price on his work, and he may refuse to labor if his employer will not pay as large wages as the miner thinks he is worth. He may also make combinations with his fellow-workmen, and adopt lawful methods for increasing his wages; and failing to accomplish this he may leave his unappreciative master and go elsewhere in quest of better fortunes. When we welcomed these men as emigrants to our free soil we did so because we expected them to be good citizens and honest workers. When they cannot earn a living at one trade it is their duty to peacefully betake themselves to some other. They must not seek to control their employers' business, nor to intimidate and prohibit any fellow-miner from earning bread by going to work.

The miners, we say, were ill-advised when they began this strike. What is it that they claim? First they say that the coal product of this country is too large, and that somebody must be intrusted with the duty of making coal scarce, and of reducing the annual product from 25 million tons to 15 millions. They say that they, the hired workmen, are the proper persons to use this control, and to produce an artificial scarcity; so that high prices may be kept up and coal may be prevented from becoming cheaper. The coal companies and the railroad people, as these miners say, cannot control the supply, or will not control it, because it is to their interest to bring as much coal into the market as possible. Hence, as there is nobody else to cut off the alleged surplus product, it is a matter of necessity that the workmen shall take the responsibility. This bold and novel reasoning was carried out with corresponding audacity. The miners had previously been gathered into one compact well-organized society, which is the strongest trades-union in the country. It bears the euphemic name of the Workmens' Benevolent Association. Before the late strike the union had become so rich as to afford to pay its officers handsome salaries, one or two ranging as high, we believe, as five thousand dollars a year. These ingenious leaders propounded the following scheme and got their ignorant followers to adopt it to their own ruin. Eight months work, said these plausible leaders and guides of the miners, were enough to supply all the coal that could be sold at high prices. A year of 12 months work would not enable a miner to earn a larger sum than a year of 8 months, because the rate of his wages rose and fell with the price of coal, and 12 months yield would fill the market so full that coal would be cheap and wages therefore low. This sophistical reasoning inflamed the imagination of the miners, who were delighted at the thought of getting 12 months' wages for 8 months' work. This discussion closed in last December. The strike was then decreed. It soon became general. And now, after four months idleness, the miners want to go to work again. The majority have long been auxious to do so. But the question is on what terms?

Arbitration has been often prescribed as a remedy for strikes. But arbitration is evidently inapplicable when, as in this case, the workmen's claims are so sweeping and so unprecedented. To settle disputed rates of wages and other subordinate matters arbitration has often tound itself a sufficient expedient. But to decide who shall control production, and whether 25 million tons a year shall be produced or 30 millions or 50 millions, is not a matter for arbitration between 40 thousand hired workmen who do not own a dollar of mine property and their employers who have 300 millions of dollars invested in the coal fields. The question of supreme control has to be first settled and finally decided. Not until then will there be free scope for arbitration,

This is really the gist of the whole difficulty. The workmen want to wield supreme control. They ask to be allowed to enforce laws, and to make regulations controlling the work in the mines, and prohibiting their masters from employing "black-legs," by which enviable name they distinguish men not belonging to their Union. They seek to place supreme power over the coal fields and their millions of capital in hands of the leaders of the miners, the chief of whom work neither as miners nor laborers, nor owners, nor operators. Thes leaders do not possess a single dollar of property in any mine, and some of them, it is said, have never earned wages in any mine by honest toil since they came to this country to live by their wits. How true this may be we do not know. What is certain is these leaders wield a prodigious influence, are extremely adroit and have evidently acquired experience in organizing strikes abroad, for in this country until of late they have had little scope for displaying their organizing and controlling powers.

From what has been said it will be seen that there is doubt as to the early termination of the strike. The men will not concede the supreme control, and their masters say that mining property will not be safe with control in their workmen's hands. Both parties are willing to arbitrate on other points. But on this fundamental article both are firm.

Meanwhile there is one thing which is too much forgotten by both parties to this terrible struggle. The mines form an important part of the national wealth. We need the coal and must have it. Forty millions of people claim the right to have a rapid development of this and other coal fields of the United States. We want from Pennsylvania not only 15 millions of tons but 50 millions, to generate steam, drive myriads of labor-saving machines, increase the natural production, and enlarge the public wealth. England raises annually 100 millions of tons of coal. Why should we raise less? She would never have borne so easily her huge national debt but for ther vast productive machinery, which, with the steam engines that drive it and with the economies which attend it, is computed to be equivalent to the work of an army of producers outnumbering the whole adult inhabitants of the globe. If there is any one mineral product which our stupendous debt and heavy taxation compel us to have free from prohibitive enactments, either by miner's unions or more legitimate authorities, it is coal.

RAILBOAD EARNINGS IN MARCH AND FROM JANUARY 1 TO APRIL 1.

Earnings for the month of March are, with some few exceptions, larger than in the same month last year. The increase is not in every case of large amount, but it is satisfactory to parties interested in Railroads to see a balance on the side of increase, although the amount may in itself be insignificant. The month of March, 1870, was not a particularly favorable one for railroad traffic, and earnings were generally below those of the previous year, a fact which is to be remembered in estimating the relative importance of the increase in each case, as shown in the table below. The new tariff upon through freights, which was in operation during the last half of April does not appear to have unfavorably affected earnings, or, at least, not so materially that its effect is perceptible in the returns of those roads which would naturally feel it most.

The tendency of freight movements is now continually towards an increase of railroad business as against the slower transportation by water, and it is reasonable to assume that if the crops of the next few years should be no larger than the average of those grown during the past five, the relative proportion of produce shipped by rail would be much larger than it has been heretofore.

Telegrams have taken the place of letters as a means of communication between merchants, and it is often more profitable to ship goods by rail at a slightly increased cost, than to take the risk incurred by waiting a longer time, with all the uncertainties of a changing market. A topic of much interest in this connection is the subject of steam power on the Erie Canal, which has been so largely discussed during the past few weeks; it is possible that the appropriation of \$50,000 by the New York Legislature, and the great importance given to the subject in Commercial circles at the present time, may result in drawing out some invention which will apply steam power successfully to canal navigation.

The Chicago and Northwestern road, which has not published its monthly earnings under the new administration, has recently issued a statement showing the following: Gross earnings for nine months ending February 28, 1870, \$9,570,094; gross earnings for nine months ending February 28, 1871, \$9,033,178; diminution in gross earnings, \$536,916; expenses for nine months ending February 28, 1870, \$6,353,284; expenses for nine months ending February 28, 1871, \$5,086,600; actual reduction in operating expenses, \$1,266,683; Diminution in gross earnings same period, \$533,916; net increase for nine months, \$732,766.

| *Annrovimete | | | | |

The first quarter of 1871 now having elapsed, the comparison of railroad traffic with the previous year becomes of more interest than heretofore, and it is gratifying to observe that in most cases the roads show a considerable improvement in their earnings over the first quarter of 1870. It is also noticeable that a material increase is shown by several roads which have not increased their mileage, while others which are working a number of miles more than during the same period of 1870, show a decrease in traffic. There is nothing remarkable in this exhibit, however, when it is remembered that new roads are usually opened in a sparsely settled country and make very small earnings at first, although they may subsequently be of great value to the original main line.

[From our ewn correspondent.]

LONDON, Saturday, April 1.

We are now approaching the close of the financial year, and the last returns issued by the Exchequer department shows that notwithstanding the war, the financial position of the country is most satisfactory. As a finance minister, Mr. Lowe has been entirely successful, for not only do the actual receipts exceed his estimates, but the real expenditure falls below that upon which he had calculated when delivering his last statement. We find, therefore, that from the 1st of April, 1870, to March 25, 1871, the total receipts into the Exchequer, amounted to £68,532,249, against £74,193,865 in the corresponding period in 1869-'70, a diminution which is due to certain important remissions of taxation. Mr. Lowe's estimated receipts were only £67,634,000, so that, although another week's collections have to be received, they are nearly £1,000,000 less than the real receipts. Again, the total expenditure has been £79,223,180, against £82,483,177 in the previous year, being a decrease of rather more than £3,000,000. Mr. Lowe estimated that the charges for the interest on the National debt, the supply services voted by Parliament, and for the telegraphs, would be £69,486,000. But up to the close of last week only £66,138,011 had been disbursed on those accounts, being about the same as during the corresponding period in 1869-'70. When we remember that for some months past, our expenditure for the army has been largely increased, and that immense preparations are being made with a view to provide against the uncertainties of the future, the above figures come upon us with surprise. They are not only an indication of the ability of our Finance Minister, but they also show that the country is in a very prosperous condition. Mr. Lowe has promised to deliver his financial statement on the first convenient Government night after the Easter recess. The statement will be looked forward to with more than usual interest, as most persons anticipate an increase of taxation in consequence of the large military preparations now in progress. Mr. Lowe, however, has deceived us more than once, but it is gratify

ing to think that it has been a deception pleasing to the community at large. The following is the last return issued by the Exchequer:

Mr. Gosehen, the successor of Mr. Childers at the Admirality, brought forward the navy estimates on Monday night. The service was represented as being in an excellent condition, if the difficulty of finding competent seamen to man the modern men-of-war be excepted. If this cannot be overcome, the First Lord of the Admirality proposes to supply the defect by training a larger number of boys for the service. The failure of the French fleet to carry out any plan during the late war has induced the government to stop the building of any additional turret ships, and to decide on the construction of a class of vessels adapted for fighting in shallow water. The amount voted for the navy was £9,756,356.

A rapid accumulation of money is now taking place in the London market, owing to the distress which has been occasioned by the state of affairs in France. The outward movement which was about to take place has been entirely checked, and there is now an entire absence of an export demand for gold. The arrivals of late have been very considerable, and the result has been that since the news of the disturbances in Paris more than £1,000,000 has been sent into the bank; and there is every indication that the accumulation of gold in the bank vaults will be very considerable. For not only is a stop put to the outflow to France, but numbers are also leaving the country, and are bringing with them all the wealth they have the power of converting into cash. As regards any rise in the bank rate, that is a quitter of it mer now he

entirely dismissed. Indeed, the return of order in Paris, and the adhesion of the country to the Thiers government would not, I think, have the effect of inducing our capitalists to give pecuniary aid to France. The want of capacity that the government and the National Assembly have so far shown, and the absence of all signs of authority, and the disposition of the lower classes to profit by the disorders which exist, must render the negotiation of loans on the part of the French a most difficult task. What course she will pursue, and what measures Germany will adopt are certainly difficult questions to reply to. Here, we are but spectators, and are certainly quite helpless in the matter, but the terrible language contained in the journal of the insurgents causes much anxiety, as there will unquestionably be a fearful slaughter in the streets of Paris, if the Versailles Government should find itself in a position, and should be compelled to enforce obedience to the authority of the National Assembly. The money, there fore, which would have been advanced to France will be retained, and will tend to keep the rates of discount down until some new channel for its employment has been opened. The quotations compared with those of last year are as follows:

| 1870. | 1871. | 1870. | 1871. |
|---|-----------|--|-----------|
| Per cent. | Per cent. | Per cent | Per cent. |
| Bank minimum 3 @ Open-market rates: 30 and 60 days' bills 2%@3 8 months bills 3 @ | | 4 months' ba'k bills 3 @3% 6 months' ba'k bills 3% @3% 4 and 6 trade bills 4 @4% | 2%@3 |

The rates of interest allowed by the joint stock banks and discount houses for deposits are as under; for those at fourteen day's notice a reduction of 1 per cent has been made:

| Toint stock hanks | 1970. | 1871. |
|--------------------------------------|-------|-------|
| Joint stock banks | 2 | 2 |
| Discount houses at call | 2 | 2 |
| Discount houses with 7 days' notice | 214 | 214 |
| Discount houses with 14 days' notice | 216,2 | *@:* |

According to the return made up to last Wednesday evening the stock of bullion held by the Bank shows an increase of £1,500,000 as compared with the last year, the total supply being £22,358,064, against £20,866,161. The reserve shows an increase of £870,000. The position of the Bank, however, has been materially improved since the rate of that return.

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland Cotton, and of No. 40 Mule Yarn, fair, second quality compared with the five previous years:

There is very little change in rates of interest on the Continent. The following are the quotations at the leading cities:

| | | ~Op. | | 1-1 | - | -B'k | rate- | -Op. r | n'kt- |
|--------------|-------|-------|-----|-----|-------------|------|---------|--------|-------|
| 1870. | 1871. | 1870. | 18 | 71. | | 1870 | . 1871. | 1870. | 1871. |
| At Paris 2% | 6 | 2 | - | 1 | Brussels | 216 | 4 | 216 | 3% |
| Vienna 5 | 6 | 5 | 5 | - 1 | Madrid | | 5 | 5 | 5 |
| Berlin 4 | 4 | 316 | 31 | i | Hamburg. | - | - | 236 | 316 |
| Frankfort. 4 | 3 | 234 | 216 | 3 | St. Peters- | | | | -/- |
| Amst'd'm. 4 | 316 | 336 | 3 | 1 | burg | 5 | 8 | 416 | 7 |
| | | | | | | | | | |

It has been found difficult to negotiate bills on Paris, but bills on Brussels and Antwerp are largely in demand. The Russian exchange is flat. The state of the gold market has been referred to above, and the silver market is scarcely better than that for gold; but Mexican dollars are in fair demand for China. The following prices of bullion are from Messrs. Pixley & Co's. circular:

| | | 8. | d. | 8. | d |

In the Stock Exchange business has partaken of much excitement, and home securities, and more especially British railway shares, have been dealt in at a considerable advance in prices. For not only is a stop put to the outflow to France, but sumbers are also leaving the country, and are bringing with them all the wealth they have the power of converting into cash. As the been dealt in the bank rate, that is a question about which there can be but one opinion, and the possibility of it may now be

Mr.

large business has been done, and an important advance in prices has taken place. Atlantic and Great Western Railway debentures closed this evening at 43% to 44%; do Consolidated Mortgage bonds, $42\frac{1}{4}$ to $43\frac{1}{2}$, and the Reorganization Stock at $7\frac{1}{4}$ to $7\frac{8}{4}$ premium. Erie Railway shares are firmer, but Illinois Central show very little change. The following were the highest and lowest prices of consols and the principal American securities on each day of the week:

| | Monday. | Tuesday. | Wed'ay. | Thu'ay | Friday. | Sat'day |
|------------------------|-----------|-----------|-------------|-------------|-----------|------------|
| Consols | 9214-9234 | 92%-92% | 921/4-93 | 92%-931/ | 923/-931/ | 92%-92% |
| U. S. 5-20's, 1882 | 92 -9214 | 92 -921/4 | 921/8-923/8 | 923/2-921/2 | 92%-92% | 92 16 -925 |
| U. S. 5-20s, 18-4 | 90 -92 | 90 -92 | 90 -92 | 90 -92 | 90 -92 | 90 -92 |

| U. S. 5-208, 1887 | 91 | 90%-91% | 91 -91% | | | |
| U. S. 10-40s, 1904 | 85% | 88%-89% | 88%-89 | 8914 | 89 | 89 -893 |
| Atlantic & G't West. | | | | | | |
| consol'd mort.b'ds | | | | | | |
| Erie Shares (\$100) | 18% | 1814-18% | 18%-18% | 18%-18% | 15%-19 | 1914-1934 |
| Hilnois shares (\$100) | 110 -111 | 110 -111 | 11) -111 | 111 | 1104 | 1104-110 |

The funded loan of the United States still attracts but little attention here, and is not dealt in on the Stock Exchange. The agents have nevertheless received some small subscriptions.

Trade remains firm, and a good business is in progress. The manufacturers appear, however, to have pretty nearly completed their Spring trade, but as we are now fairly into Spring, the retail houses may be expected to be very busy. The following relates to the trade of Manchester:

relates to the trade of Manchester:

The tone of this market since Tuesday has been quiet, and the tendency of prices where any change has occurred has been rather in favor of buyers. What change has taken place, however, has been so very slight that quotations remain the same, and any orders which have been given out to-day have been at least at the full prices of this day last week. The unsettled state of affairs in France has not been without its effect here. In things in that country have got into such a state that really any further developments against order and autho ity would have very little effect. The very worst has now been discounted, and money has become more owndant here in consequence of the insecurity in France. The cotton market remains rather flat, owing to the large receipts of American cotton which are reported for the week. The imports, however, are small, owing to the cast winds, and there has been no pressure to sell. Spinners are so full of orders that they make any concession in prices with the greatest relactance, but to-day they have been rather more open to contract further engagements than they were on Tuesday last.

The demand for export yarns has been rather flat since Tuesday last; nevertheless prices remain very steady, and quotations are unaltered since this day last week.

The following statement shows the imports and exports of cotton into and from the United Kingdom, from September 1 to March 30, compared with the corresponding period in 1869-'70:

| | 18 | 70-1. | 1 | 869-70. |
|---------------|-----------|----------|-----------|----------|
| | Imports. | Exports. | Imports. | Exports. |
| Americanbales | 1,261,248 | 208,412 | 762,523 | 60.873 |
| Brazilian | 211 418 | 32,209 | 275,930 | 35,683 |
| East Indian | | 327,312 | 823, 193 | 336,246 |
| Egyptian | 181,063 | 6,128 | 128,826 | 2,481 |
| Miscellaneous | 167,936 | 4,827 | 72,059 | 9,791 |
| Total | 2,610,212 | 579,018 | 2.062.531 | 445.077 |

During the week the weather has been colder, but dry, and sowing is now completed. There is every indication of a favorable season. The wheat trade has been firm, and English produce is rather dearer. For export a good business is doing.

Annexed is a return showing the imports and exports of bread stuffs into and from the United Kingdom during last week and since the commencement of the season, compared with the corresponding periods in 1869-'70:

FOR THE WEEK ENDING MARCH 25,

| | 1870 | | 1869° | 70. |

Central Pacific R R Gold Bonds.—An important advance is again noticed in these favorite securities, which are now quoted in all the principal financial markets of the World. The entire issue of these bonds is a little under \$26,000,000 and no more can be issued by the company. Nearly the entire amount is distributed among private investors and financial corporations in this country and among investors in Germany and Great Britain, where they are ranked with our Government bonds. In view of the probable color register selection of the interest on the Government bonds, a sharp are ranked with our Government bonds. In view of the probable early reduction of the interest on the Government bonds a sharp demand has recently developed itself from the same class of investors who have been holding five twenties. Should this demand continue, as it now seems likely, there is no reason why the bonds should not advance to about the price of the five per correspond tissues. cent. Government issues.

New York & Harlem .- The stockholders of the New York & Harlem Railroad Company held a meeting in their office on Tuesday, to consider the proposed increase of capital stock, recom-mended by the Board of Directors in the following resolution, passed March 14:

passed March 14:

Resided, That it be recommended to the stockholders to increase the capital stock of the Company by the amount of \$2,000,000, for the purpose of completing the new depot at Forty-second street, and the Madison avenue line from Forty-second street to Eighty-sixth street, and for the purchase of the necessary equipments for operaring the same; such increase to be issued at such time and upon such conditions as the Board of Directors may from time such time and upon such conditions as the Board of Directors may from time

A large number of stockholders were present, and the vote was as follows: In favor of the increase, 128,834 shares; against it, 800

Minnesota State Bonds.—On May 2d next, the citizens of the State of Minnesota are to vote upon the adoption or rejection of an act which has been prepared by the Legislature, with a view to terminating the controversy long waged in that State, on what are known as loan amendment bonds. Should the popular vote approve the act submitted by the Legislature, the Governor is to appoint three persons as a Board of Commissioners to take the whole matter in review, and ascertain the rights and liabilities of all parties in question; their report to be made before July 1,1871.

The Finances of Texas.—The message of Governor Edmund J. Davis, to the Legislature, dated January 10th, 1871, says:

J. Davis, to the Legislature, dated January 10th, 1871, says:

"The Auditorial Board, created by the provisional act of November 9th, 1866, reported total debt, principal and interests, on the 1st of December, 1888, at \$332,496 17. This, however, includes the sum of \$78,466 51, audited and unadited van interest notes; which are by said section of the Constitution, declared void. Deduct this latter sum, and it will leave \$243,999 66, as the total debt on 1st December, 1867, which, with interest added to date, and the amount anaddited (about \$50,000.) as above mentioned, due from the Penitentiary, presents the total indebtedness of the State. The exact amount cannot be ascertained from data within my possession, but it certainly does not exceed, at this time, \$360,000, principal and interest, of which only that part due from the Penitentiary, may properly be considered specie.

"Under the act approved August 5th, 1870, providing for the issuance and sale of \$570,000 of the bonds of the State, for Frontier Defense, I have had the bonds properly engraved, printed and signed.

"Beyond the debt for Frontier Defense, we owe but very little, and this is more than balanced by just claims, which we have against the United States, accraing before the war."

These seven hundred and fifty thousand dollars Frontier Defense Bonds bear 7 per cent interest, payable semi-annually in the city of New York, in gold coin, and are redeemable after twenty and payable in forty years from date, in gold, the Interest and Sinking Fund being secured by direct taxation, by special act of the Legislature of Texas.

BANKING AND FINANCIAL.

BANKING HOUSE OF HENRY CLEWS & Co., 32 WALL ST., N. Y. Our business is the same as an incorporated bank.

Deposit accounts can be opened with us in either Currency or

be allowed on all daily balances. Checks upon us pass through the clearing house as if drawn upon any city bank.

We issue Circular Letters of Credit for travelers, available in all parts of the world; also Commercial Credits. We make telegraphic transfers of money to any desired point, and transacevery description of foreign banking business.

We draw Bills of Exchange in sums from £1 upward on.

The Imperial Bank, and Messrs. Clews, Habicht & Co., London.

We make collections of Notes, Drafts, Coupons and Dividends with promptness on all points, and are fully prepared to offer banking facilities upon either currency or gold basis.

NORTON, SLAUGHTER & CO., WM. ALEXANDER SMITH & CO., HALLGARTEN & CO.,

Recommend, after a thorough investigation into the affairs of the Company, as a very safe and desirable investment, the Eight Per Cent First Mortgage Bonds of the Elizabethtown and Paducah Railroad Company of Kentucky. We are only authorized to offer a limited amount of these securities at 871 and accrued interest The bonds offered are on the completed portion of the road, which is in successful operation.

HARVEY FISK.

OFFICE OF FISK & HATCH, BANKERS, No. 5 NASSAU STREET, NEW YORK, March 27, 1871.

THE FIRST MORTGAGE SIX PER CENT GOLD BONDS THE CHESAPEAKE & OHIO RAILROAD COMPANY-of which about \$6,000,000 have already been marketed—are secured upon an East and West Trunk Line of Road, 427 miles in length, the greater part of which (227 miles) is in profitable operation, and the remainder rapidly building. When completed it will establish a short, economical and favorite route between tide-water navigation and the chief railroad and river cities of the West.

Beside the immense volume of through traffic between the East and West which this road can command by its superior advantages in distance, grades, fuel, and unfailing navigable connections, this road must convey enormous quantities of the superior, smelting, cannel, and bituminous coals of the Kanawha Valley, and the iron ores of Virginia and West Virginia, which are in demand at both ends of the line.

The value of the property, the certainty of a large and profitable business, the established reputation and credit of the Company, and its able and honorable management, give to these securities an assurance of superior value and safety.

They may be had in Coupon or Registered form, and in denom \$1,000, \$500 and \$100. inations of

Price, 90 and accrued interest from November 1.

We have prepared pamphlets, showing the agricultural, mineral, and manufacturing advantages of the adjacent territory, and the traffic facilities and financial prospects of the road, which wil be furnished on application.

FISK & HATCH, Financial Agents.

UNION PACIFIC LAND-GRANT BONDS.

Office of Morton, Bliss & Co., Bankers, (New York, March 20, 1871.)
The undersigned offer for sale the balance of the Land-Grant Bonds of the Union Pacific Railroad Company. The road has been in operation about twenty months. It is completed in all respects, and its earnings have aver aged \$8,000,000 per annum. These bonds bear 7 per cent interest, coupons payable April and October.

They are receivable at par in payment for the Company's lands.

They are receivable at par in payment for the Company's lands.

The following summary of the financial condition of the Company is from the address of Colonel Thomas A. Scott to the stockholders, upon his accepting the presidency, at the annual meeting in Boston, March 8:

"Land Department.—Bonds, 7 per cent currency, \$10,400,000.

"Land Sales.—292,900 acres; proceeds, \$1,306,566; average price per acre \$4.46.

On account of these sales the company has received and redeemed land-grant bonds to the extent of.

For the remainder the Company holds land-notes maturing in one, two and three years with accruing interest.

576,650

Total. \$1,312,650
"The condition of the land department may, therefore, be stated thus:
Bonds. \$10,400,000

| which at an average value of two dollars per acre, being slow the minimum Government price for adjoining lands oveld the gross sum of \$23,574,234, so much thereof as may be plied to the payment on redemption of the land-grant bouce to go into the Treasury. The average land sales amount month. | ř |
|--|---|
| Leaving on hand as an asset. —which at an average value of two dollars per acre, being below the minimum Government price for adjoining lands ov yield the gross sum of \$28,574,284, so much thereof as may applied to the payment on redemption of the land-grant because to go into the Treasury. The average land sales amounder month. | twenty per cent wned by it, should be required to be ends, and the bal |
| From present indications it would seem reasonable to estim gross receipts of the coming year at a minimum of. With a cost of maintaining and operating the line on this ir earning of not exceeding say. | \$9,000,000 acreased |

"The operations of the line for the first twenty months of its existence as a completed road show net earnings sufficient to meet the interest upon its bonded debt.

This result cannot but be deemed, by all practically versed in the history of new railway lines, as indicating a successful future. The yearly increase of traffic, costing but little additional to transport, and therefore yielding a large percentage of net revenue, must soon give a value to your property not eadily appreciated at present.

MORTON, BLISS & Co., No. 30 Broad street.

NEW LOAN OF THE UNITED STATES.

The subscriptions to the New Five Per Cent. Stock of the United States now amount to about \$60,000,000. They are confidently expected to reach \$100,000,000 by the time the New Bonds are ready for delivery in May. The proposals of the Secretary of the Treasury will then be changed to the follow-

First. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of five per cent. per annum

Second. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue and bearing interest, payable quarterly in coin, at the rate of d a half per cent. per annum.

Third. Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four per cent. per annum

Subscriptions to the loan will have preference, after the above-mentioned

two hundred millions are taken up, in the following order, namely:

First. Subscriptions for equal amounts of each class of bonds.

ed. Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of

Third. Subscriptions for any five per cent. bonds that may not be subscribed

for in the preceding classes.

Subscriptions to the remainder of the \$200,000,000 of five per cents., which are unconditional, are now going on, and the bonds will soon be issued to the subscribers, who can receive a scrip certificate in advance, if they desire to pay their gold or exchange United States 5-20s at once, in the registered or Registered bonds will be issued of the denominations of \$50, \$100, \$500, \$1,000, \$5,000 and \$10,000; and coupon bonds of each denomination last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depositary of the Government, quarterly, on the first days of February, May, August and November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal, or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and

numbers, as may be designated by the Secretary of the Treasury.

The reduction of the public debt since the close of the war of the rebellion, and the relief, at the same time, to the annual burden of interest, are [as

| Principal of debt, 1365. | |

FRIDAY EVENING, April 14, 1871.

The Money Market.-The money market has shown some irregularity during the week, closing at rates much easier than those current for the first few days. The movements, which we previously noticed, in the direction of a "lock up" of legal tenders, have been further developed, showing pretty clearly that from \$3,000,000 to \$5,000,000 had been withdrawn from circulation since the first of the current month, though it was done so gradually as not to disarrange the daily clearing house bank state. ments, and therefore did not attract the usual attention. The funds thus withheld have recently been returned to the market, and the attempt to make stringent money and depress stocks is generally considered to have been a complete failure, either from dissensions among the parties to the combination, or because it was abandoned by common consent, through fear that the project might be defeated by the Secretary of the Treasury. The sharpest activity in call loans was on Saturday, which, coming sharpest activity in call loans was on saturday, which, coming:
between Good Friday, a semi-holiday, and Sunday, gave the clique
a good opportunity to surprise those parties who had not been
careful to make their arrangements for money beforehand, and
rates went up to 7 per cent and 7 gold, with a commission also paid
in some cases. On Monday rates opened firm under the impression
that the manipulation would be continued, but all efforts to keep
up the firmness failed, and there was an abundance of loanable
funds in the afternoon at 6@7 per cent with exceptions at five;
upon which basis the bulk of business has since been transacted,
with a growing tendency towards ease, and some loans made

upon which basis the bulk of business has since been transacted, with a growing tendency towards ease, and some loans made to-day on Government collatteral at 4 per cent.

The Bank reserves as shown by the last statement are unusually low, though it is expected that the weekly clearing house returns of to-morrow will show an improvement, as some of the leading banks report moderate receipts of currency from the interior, and it is generally expected that this return of currency will now steadily increase.

The following was the decrease in cost in the state of the state

The following was the decrease in each item of the bank returns from the previous week: Loans, \$975,057; Specie, \$2,463,506; Circulation, \$6,888; Deposits, \$6,344,438; Legal tenders, \$2,324,546. The net result of these figures show the banks to be \$3,200,220 weaker in their excess over legal reserve, the whole excess being only \$4,617,544.

the whole excess being only \$4,617,544.

The following statement shows the present condition of the

United States Bonds.—Government Securities were dull and inactive in the early part of the week without any important features in the market, but during the past two days have been stronger with an improved business, closing at an advance of about ‡ per cent on 5-20s of 1867; ‡ per cent on 10-40s and ‡ on currency sixes. The advance has been based to some extent upon the higher quotations in London, where the 5-20s of 1862 sold to-day at 90‡ ex-interest, and 1867s at 92‡, the former being at the price named only ‡ per cent below parin Gold. Subscriptions to the new loan have progressed moderately and will agregate at the close of this week about \$60,000,000. Mr. Boutwell has deferred any changes in his arrangements for negotiating the loan until the first of May, when his action in the matter will be influenced by the progress which has been made up to that time. It is said that the honorable Secretary entertains some different ideas in regard to the business details necessary for placing the loan, since his recent visit to New York and Boston, and there seems to be good reason to anticipate that when the bonds are ready, after the first of May, the progress of the loan will be rapid, both at home and abroad; there is, indeed, a possibility that a very large proportion of the five per cents may then be taken in one lot by a combination of capitalists.

One element of strength in our own market is now found in the diminished enemyly of 5.20 honds, since the large purchases. United States Bonds .- Government Securities were dull and

One element of strength in our own market is now found in the diminished supply of 5-20 bonds, since the large purchases by Government, continued for two years, have withdrawn so considerable an amount of the floating stock. Offerings at the Government purchase of \$2,000,000 on Wednesday amounted to \$7.419.550

*Tais is the price bid and asked, no sale was made at the Board.

*Railroad and Miscellaneous Stocks.—Stocks have been strong and advancing, several of the leading speculative favorites showing the highest prices of the year. When the market was relieved from the depressing influence caused by the attempts to tamper with money, and call loaus returned to 6 per cent, a new life was imparted to stock operations, with much buoyancy in prices, as above noticed. The attempt to depress the market was, in fact, rather favorable than otherwise, as it had the effect of creating a large "short" interest—always a good basis upon which to advance prices. Stocks are undoubtedly controlled very much by cliques, who are carrying large blocks, and are obliged to take what is thrown on the market by outside parties, until prices shall have been kept at a high point sufficiently long to enable them gradually to "unload." New York Central and Hudson River has sold up to 97\(\frac{7}{2}\), equal to 101\(\frac{7}{2}\), plus dividend; Lake Shore 105\(\frac{1}{2}\), Reading 109\(\frac{1}{2}\), Northwestern 90\(\frac{1}{2}\), do, preferred 98, Ohio and Mississippi 52\(\frac{3}{2}\). Wabash 62\(\frac{1}{2}\), and Union Pacific 32, which are above the highest figures that have been known on these stocks for a long time past. Mariposa preferred sold up to 12\(\frac{1}{2}\) under the manipulation of the new party having control of it. The announcement that the stockholders of Harlem Railroad have voted to add \(\frac{2}{2}\).000,000 to the capital stock had but little effect on the price, as it had been discounted. The proceeds of the sale of this stock is to be devoted to the completion of the new union depot at Forty-second street. Cleveland, Columbus, Cincinnati and Indianapolis sold up to 91\(\frac{1}{2}\); Panama has declined to 61\(\frac{1}{2}\). At the close the market was off from the highest point of to-day, and the tone somewhat unsettled. the close the market was off from the highest point of to-day, and the tone somewhat unsettled.

the tone somewhat unsertied.

The following were the highest and lowest prices of the active distofrailroad and miscellaneous stocks on each day of the last week: Mandam Translaw Wadnesdly

State and Railroad Bonds.-The Southern State bonds have been variable on a fair volume of transactions, and close in most cases at an advance on the prices of last week, except South Carolines which was been linas, which are lower.

There have been some purchases of the North Carolina special tax railroad bonds, said to be for the account of parties who are largely interested in railroad property, and who are seeking to obtain control of roads in North Carolina by exchanging these bonds, purchased at a very low price, for the stocks held by the

The questions before the Courts in Louisiana as to the right of the State authorities to increase the debt beyond the limit of \$5,000,000 established by constitutional amendment, has been decided in favor of the State auditor, the Court directing him not to draw further warrants; the case has now been appealed to the highest Court of the State.

The interest on the Alabama and Chattanooga Railroad bonds, is being raid by the State of Alabama, we understand upon all

is being paid by the State of Alabams, we understand, upon all the bonds issued or endorsed by the State, as it was not found practicable to establish distinctions between different holders; the

practicable to establish distinctions between different holders; the course pursued is creditable to the State authorities. Central Pacific Railroad bonds are reported in active demand and have advanced to 97½. Union Pacifics have also been stronger on the better prospects for the road under a new administration. Closing prices were as follows: Firsts, 85½@85½; Land Grants, 77½@77½; and Incomes, 75½@75½.

The bids for the new loan of the Ohio and Mississippi Railroad were opened on Monday and were found to amount to a total of \$3,500,000 at 80@81.08. The amount offered—\$2,500,000—was awarded at an average of about 80½ per cent.

The following are the highest and lowest prices of the most active State Bonds at the Board on each day of the week:

The Gold Market.—Gold remained dull and without any feature of interest until Thursday, when the large amount of bids for the \$2,000,000 sold by Government—footing up some \$10,375,000—developed such a large demand as to give strength to the market and advance the premium to 110\$\frac{3}{2}\$. To-day there was considerable activity on the prospect of large shipments of coin to-morrow, reported at about \$1,100,000, and the price further advanced to 110\$\frac{3}{2}\$. To-day there was considerable activity on the prospect of large shipments of coin to-morrow, reported at about \$1,100,000, and the price further advanced to 110\$\frac{3}{2}\$. The principal supports to the market previously have been the large customs demand amounting for the week to \$2,952,000, and the short interest, which is shown to be considerable by the rates for carrying, which have ranged from "flat" to 2 per cent, these rates being also the quotations to-day. The tone is strong at the close under the influences noted, but the prevailing speculative feeling for the week has been rather on the side of lower prices.

wer prices.

Foreign Exchange.—There have been uniform firmness in the rates of leading drawers, and 110 has been the asking price for 60 days sterling, some houses not even allowing the usual commission off this price. The reduction of the Bank of England rate to 2½ on Thursday, made in consequence of the non-withdrawal of specie to the Continent, has seemed to have little effect upon our rates, as the reduction was probably anticipated. The demand for exchange has been very fair, though in many cases buyers have been held in check by the high rates, and orders in brokers hands could not be filled within the limits named by their customers. A natural result of this condition of affairs is seen in a comparatively large amount of specie shipments, the total engagements for to-morrow's steamers being reported this evening at upwards of \$1,000,000. The large imports of foreign merchandise, small exports of U. S, Bonds or other securities, and the natural falling off in the supply of Cotton bills as the season advances, would all seem to point towards continued firm rates and considerable specie exports.

Cotton exports for the week amount to 83,987 bales—producing about \$5,265,984 in Gold, against 49,051 bales in the same week of 1870, producing \$4,610,794 Gold, at the prices then current.

The Railway Monitor.

EXPLANATION OF THE STOCK AND BOND TABLES.

1. Prices of the Active Stocks and Bonds are given in the "Bankers' Gazette" ante: quotations of other securities will be found on the pre-

2. Bank and Insurance Stocks, Mining. Petroleum. City Railroad and Gas Stocks, and Southern Securities of those kinds which are least active, are all quoted either regularly or occasionally at the end of "Bankers' Gazette," on a previous page.

3. The Table of Railroad, Canal and Other Stocks, on the next page, comprises all Companies of which the stock is sold in any of the principal cities (except merely local corporations). The figures just after the name of the company indicate the No, of the CHRONICLE in which a report of the Company was last published. A star (*) indicates leased roads; in the dividend column x=extra; s=stock or scrip.

Lextra; **s=stock or **scrip.

4. The Tables of Railroad, Canal and Other Honds occupy in all, four pages, two of which will be published in each number. In these pages the bonds of Companies which have been consolidated are frequently given under the name of Consolidated Corporation. The date given in brackets immediately after the name of each Company, indicates the time at which the statement of its finances was made. In the "Interest Column" the abbreviations are as follows: J. & J.—January and July; F. & A.—February and August; M. & S.—March and September; A. & O. April and October; M. & N.—May and November; J. & D.—June and December Q.—J.—Quarterly, beginning with January; Q.—F.—Quarterly, beginning with February. Q.—M.—Quarterly, beginning with March.

The Table of State Securities will be published monthly, on is iast Saturday of the month.

6. The Table of City Bonds will be published on the third Saturday of each month. The abbreviations used in this table are the same as those in the tables of railroad bonds mentioned above. The Sinking Fund or assets held by each city are given on the same line with the name

Report of the South Carolina Railroad Company for the Year ending December 31, 1870.—The business of this year will be found to show, as was the case also last year, a marked increase, and to have attained its full average before the war. It is thus stated:

| Gross earnings of road. Receipts from other sources. | \$1,468,340 16,798 | 53 01 |
|--|-----------------------|----------|
| Total And has been disposed of as follows: | \$1,485,138 | 54 |
| Road expenses, including renewal of rails | 916,095 | 82 |
| Interest—Foreign bonds | 74,272 | 35 |
| Interest—First mortgage, domestic bonds | 60.865 | 00 |
| Interest-Domestic six and seven per cent bonds | 142,621 | |
| Interest—General | 45,003 | 66 |
| Total | \$1,238,858 | 33 |
| and foreign and domestic interest, is | \$2 46,280 | 21 |
| Dividends. | 116,388 | _ |
| Y | 4100 000 | 24 |

Leaving a balance of \$129,892 21
which has been carried to the "reduction of debt, purchase of
locomotives, cars and real estate."
The Domestic Bond debt has been very largely increased by the

The Domestic Bond debt has been very largely increased by the transfer to that account from the Foreign Sterling debt of that portion of the Sterling debt which was owned in this country. The exchange was made under a provision of the Mortgage Deed, for seven per cent. Currency Bonds, payable here. It is needless to add that a corresponding reduction of the "Sterling Debt" account is consequent upon this increase. The "Domestic Bonds" debt account has also been increased by issues in redemption of the bills of the South Western Railroad Bank, settlement of past

the bills of the South Western Railroad Bank, settlement of past due bonds, and purchases of property; and in like manner has occurred the increase of bills payable.

During the year the exchange of First Mortgage Bonds for the past due sterling and other securities of the company, having reached that point at which a compliance with the resolution adopted by the holders on the other side, could properly be considered as accomplished, to wit: "That the exchange in the United States must first be made, &c." Complete and very full evidences of the fact of exchange here, and of cancellation also, were prepared and sent over to London, and as the company has done all that was required, and perhaps more, we are at liberty to anticipate that this protracted negotiation will meet with no further obstacle to its completion. The amount now remaining unexchanged is \$1,492,015 64; the holders of which, to a greater amount than is needed to cover the requirements of the Mortgage Deed, as the stockholders have been already advised, have agreed to exchange, upon the terms and conditions just above referred to.

upon the terms and conditions just above referred to.

The earnings of the road have been:

| | 1869 | | | . 909,405 | 43 |

\$6,690 39 Increase. \$6,690.39
Owing to a change in the system of keeping the expense accounts, the items cannot be tabulated for comparison, but the sum given above as the total for 1869 includes only such items as make up the total expenses for 1870.

As indicated in their report of 1870, the Board commenced on

the 1st of August last the payment of small dividends out of the earnings of the six months, terminating on June 30th preceding; and they have since declared a further dividend from the earnings of the last six months, payable on February 1st. It is proposed to continue these payments, and with the present figures of income the Board regard the purpose quite practicable.

Trustees, { Russell Sage, N. A. Cowdreg.
(b) First mortgage 7 per cent sinking fund gold bonds, dated June 1, 1870, interest payable in New York, June and December, and principal payable in 1903, issued by the Tebo and Neosho Railroad Company, on the line from Sedalia, Mo., southwesterly in direction of Fort Scott to the west boundary of the State, about 100 miles

road Company, on the line from Sedalia, Mo., southwesterly in direction of Fort Scott to the west boundary of the State, about 100 miles.

Union Trust Company of New York, Trustee.

Bonds \$1.000 each, Nos. 1 to 2,000

© Consolidated mortgage 7 per cent land grant and sinking fund gold bonds, dated February 1, 1871, interest payable in 1904, issued by the M. K. and T. Railway Company on 592 miles of railroad, being at the rate of \$23,650 per mile of completed road, and on about 440,000 acres of land in Kanssa and in the Indian Territory, granted by acts of Congress of the United States, approved July 25 and 26, 1866; 3,100,000 acres subject to the Indian occupancy until that shall be extinguished.

These bonds are entitled to the benefit of a sinking fund equal to 1 per cent in gold on the principal of the bonds, issued to be paid to the Trustees annually, commencing after three years from date of the bonds, with interest on all prior payments, also payable annually in gold coin, by which means the whole issue of bonds will be retired in 33 years from their date.

Union Trust Company of New York, Trustee.

(d) Of the foregoing consolidated mortgage bonds, \$6,145,000, Nos. 1 to 6,145 inclusive, can only be issued by the trustee in exchange for bonds for like amount previously issued, as above recited by the Union Pacific Railway Company, Southern branch, and by the Tebo & Neosho Railroad Company.

And there is to be issued, pro rata, on or before May, 1871, as the road from Chetopa to Arkansas River (90 miles) is completed.

And at once, on about 75 miles of road in Kansas, already constructed.

(e) And there is reserved Nos. 10,001 to 14,000, both inclusive, to be issued only on completed accounted to the completed accou

(e) And there is reserved Nos. 10,001 to 14,000, both inclusive, to be issued only on completed sections of the line, south from Arkansas River to Preston in Texas (160 miles), as certificates of the Chief Engineer and General Superintendent of road and President of the Company, shall be filed from time to time with the tweeters.

4,000,000 On 90 miles from Chetopa to Arkansas River, to be completed by May 1, 1871:

Mortgage bonds....\$2,250,500 On 90 miles from Chetopa to Arkansas River, to be completed of sale (Capital stock. \$2,250,000 Mortgage bonds. \$2,250,000 miles, from Arkansas River to Preston, not yet under contract, but on which the preliminary surveys are being made:
Capital stock. 4,000,000 Mortgage bonds. 4,000,000 Total on 592 miles of road:
Capital stock. 16,257,500 Mortgage bonds. 16,257,500 Mortgage bonds. 16,257,500 Mortgage bonds are issued, except on a completed section of road, as certified by the Chief Engineer, \$25,000 per mile in stock, and a like amount in bonds when there is a land grant, and when there is no land grant, \$30,000 per mile in bonds only is issued.
Of the 100,075 shares of capital on 342 miles of completed road, 11,300 shares are owned by counties along the line in Missouri, and cannot be sold or offered or sale, except as taxpayers paying the special tax levied to pay the county

bonds issued, and receiving scrip therefor, shall withdraw such shares by presenting scrip in amounts of one hundred dollars in exchange. The company have also the right, under acts of the Legislature of Texas, passed August 8d and 3d, 1870, to extend its line southwest from Preston, via Waco and Austin to the Rio Grande, and also south from Preston to the waters of Galveston Bay, in all about 1,000 miles, in the State of Texas, for which it will be entitled to receive, under an ordinance of the Convention of 1866, approved November 13, 1866, sixteen sections of land per mile (10,240 acres per mile), as its road shall be constructed, in all about ten million acres of land in that State.

Transfer Office, 7 Nassau street, New York. Register of Stock, Union Trust Company of New York.

The Texas Pacific Railroad.—An official notice is given that the Texas Pacific Railroad Commissioners will meet in this city,

the Texas Pacific Railroad Commissioners will meet in this city, on April 15th next, for the purpose of opening books of subscription to the capital stock of the Company, of receiving subscriptions to the said stock and for electing a Treasurer.

The bill for the construction of this important road having become a law, weannex the following particulars of the route:

The main track commences at Marshal, Texas, and extends thence by the most direct and eligible route, to be determined by said company, near the thirty-second parallel of north latitude to a point near El Paso; thence by the most direct and eligible route, to be selected by said company, through New Mexico and Arizona, to a point on the Rio Colorado at or near the southeastern boundary of the State of California, thence by the most direct and eligible route to San Diego, California. The New Orleans, Baton Rouge and Vicksburg Railroad Company, chartered by the State of Louisiana, has the right to connect by the most eligible route to be selected by said company, with the said Texas Pacific Railroad at its eastern terminus, and shall have the right of way through the public lands to the same extent granted hereby to the said Texas Pacific Railroad Company, and in aid of its construction from New Orleans to Baton Rouge, thence by way of Alexandria in said State, to a connection with the said Texas Pacific Railroad Company, at the sectors there is the subscript. struction from New Orleans to Baton Rouge, thence by way of Alexandria in said State, to a connection with the said Texas Pacific Railroad Company at its eastern terminus, there is hereby granted to said Company, its successors and assigns, the same number of alternate sections of public land per mile in the State of Louisiana as are by this act granted in the State of California to the said Pacific Railroad Company, and said lands shall be withdrawn from market, selected and patents issued therefor and opened for settlement and pre-emption upon the same terms and in the same manner and time as is provided for and required from the said Texas Pacific Railroad Company, within said State of California, provided that said company shall complete the whole of said road within five years from the passage of this act. For the purpose of connecting the Texas Pacific Railroad with the city of San Francisco, the Southern Pacific Railroad of California is hereby authorized, subject to the laws of California, to construct a line of railroad from a point at or near Tehachapa Pass, by way of line of railroad from a point at or near Tehachapa Pass, by way of

Los Angelos, to the Texas Pacific Railroad at or near the Colora-Los Angelos, to the Texas Pacine Railroad at or near the Colorado River, with the same rights, grants and privileges, and subject to the same limitations, restrictions and conditions as were granted to said Southern Pacific Railroad Company of California, by the act of July 27th, 1866; provided, however, that this section shall in no way affect or impair the rights, private or prospective, of the Atlantic and Pacific Railroad Company or any other railroad company road company.

Lehigh Coal and Navigation Company.-The lease of the

Lehigh Coal and Navigation Company.—The lease of the Lehigh and Susquehanna Railroad and its branches to the Central Railroad Company of New Jersey, which we have previously noticed, is, in terms, substantially as follows:

First.—The Central Railroad Company will pay as rent one-third of the gross receipts derived from all the business of the road.

Second.—They will purchase all the equipments of the Lehigh and Susquehanna road, and pay therefor by assuming the payment of a rout \$2,300,000 of the \$5,000,000 gold loan, at or before maturity, and will pay the interest thereon until the bonds are surrendered for cancellation. The Central Railroad also agree to assume all liabilities under the two car trust organizations, and to purchase all materials on hand, and shop tools and machinery.

Third.—They will maintain and perpetuate the railroad at their own cost, but the loss by freshets, when exceeding \$5,000 at any one time, to be paid by the Lehigh and Susquehanna Company.

Fourth.—They will provide at their own cost all of the rolling stock and machinery necessary for all the business of the company.

Fifth.—They covenant to protect the interests of the Lehigh and Susquehanna Company in case of a merger, or close alliance of any kind between them and the Lehigh Valley Railroad Company.

pany.

Sixth.—They will furnish all cars required for the transportation of the coal from the Lehigh mines.

Seventh.—They will provide all cars that may be required for the transportation of coal to the canal from collieries on the line of the Lehigh and Susquehanna road, or roads connecting there-

Eighth.—They covenant to pro-rate all transportation charges traffic interchanged between the Lehigh and Susquehanna Eighth .on road and other roads controlled by them.

Ninth.—All the coal from the Lehigh lands of the Lehigh Coal

Anth.—All the coal from the Lenigh lands of the Lenigh Coal and Transportation Company is pledged to the leased road and to the canal of that company, and to the Central Railroad of New Jersey; and also three-fourths of the coal from the Wyoming lands, where not pledged by existing contracts to other lines.

Tenth.—The Central Railroad of New Jersey have the option

for three years of leasing the Lehigh Canal, at a net annual rent of \$300,000.

of \$300,000. Eleventh.—All necessary further sidings, double track, stations, shops or other buildings, to be made with the consent and at the expense of the Lehigh and Susquehanna Railroad Company. The money to be advanced by the Central Railroad of New Jersey, and at a rate of interest not to be less than seven per cent. The Lehigh and Susquehanna Company to have the right to repay the advance at any time.

Twelfth.—All differences between the two companies to be

arbitrated.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 14, 1871.

There has been some improvement in trade the past week. The demand for merchandize from Western and Southern dealers has improved, and most articles of importation have ruled steady, or have slightly improved, but on the great agricultural staples of the country which depend upon an export demand, Cotton, Breadstuffs, Provisions and Tobacco, prices have declined, with unimportant exceptions, and the decline has not in all cases led to an increased business.

Cotton has declined to 14% for Midland Upland. Flour is easier at \$6 60@6 65 for good shipping extras. Wheat closes weak at \$1 571@1 60 for New Spring. Corn has declined to 76@77c for prime mixed, leading to a large business. Groceries show more activity in Coffees at the late decline, while Sugars have taken an upward tendency.

Tobacco shows a further decline in Kentucky Leaf, with a dull market. Cutters and dealers have held off, and the sales for the week have been only about 450 hhds mostly for export to various parts. Quotations are reduced to 51 @6c for lugs, and 61/2@9c for common to good leaf, but really very little selling over 712. The business in Seed Leaf Tobacco has nearly come to a standstill, and prices are quite unsettled. Sales include 250 cases New Ohio on private terms, 100 cases Connecticut Wrappers, crop of 1869, at 45@52c; 100 cases Old Wrappers, assorted lots, 35@60c. Spanish Tobacco has been in fair request, with sales 500 bales Havana at 88c@\$1 02, and 94 bales Old Yara, 3 cut, on private terms.

In most staples of Provisions prices show a further decided decline, but there is, at the close, some indications of a better demand, both for export and home use, buyers apparently only waiting for prices to touch bottom. Mess Pork closed at \$19 25@\$19 50; prime Mess, \$17 75@\$18; prime Lard, 11½c.; Cumberland Bacon, 9c.; Beef also shows an irregular decline. Cheese is lower, and shippers have been able to buy the finer factories at 18c. Butter has given way 2@3c.

Wool has been more active, but is still rather quiet, awaiting supplies from California.

Freights have been active. The charters to carry Petroleum have amounted to about 60,000 bbls. from here and Philadelphia. The shipments of grain have also been large, and rates have advanced to 71/2081. by sail and steam to Liverpool; 8d. by steam to Glasgow, and 8d. by sail to London, with charters to cash for orders at 5s. 6d.@5s. 9d.

Rosin has been depressed by the scarcity and firmness of ocean freights, and closes nominal at \$2 60 for Strained. Spirits Turpentine early in the week was weak under larger receipts, but closes scarce, in good demand and very firm at

Metals have been quiet, excepting copper, which has sold for speculation to the extent of 7,000,000 lbs at 21@21%c for Lake, closing unsettled. Petroleum has remained firm at last weeks prices with a moderate business.

Hides have been fairly active at steady prices. Leather quiet. In Tallow, the export movement has been large, mainly at 87c. In Oils, we notice the sale of 1,700 bbls Crude Sperm for London at or about \$1 30. Hops have been firm, with a good demand for export. Whiskey has been dull and unsettled.

Of East India goods the principal transactions have been a line of Manila Hemp, 1,500 bales, at 95c, gold, and several parcels of Calcutta Linseed at \$2 30@2 321, gold, per 56 lbs cash and time.

Exports of Leading Articles from New York,

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of NewYork since January 1, 1871, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show tath subject to the principal foreign to the particle being show that subject here.

COTTON.

FRIDAY, P. M., April 14, 1871

FRIDAY, P. M., April 14, 1871.

By special telegrams received by us to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening April 14. From the figures thus obtained it appears that the total receipts for the seven days have reached 64,156 bales against 67,543 bales last week, 71,744 bales the previous week, and 81,426 bales three weeks since, making the total receipts since the first of September, 1870, 3,448,720 bales against 2,488,867 bales for the same period of 1869–70, showing an increase since September 1 this year of 959,553 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1870 are as follows

| RECEIPTS Rec'd this week at— | 1871. | 1870. | RECEIPTS Rec'd this week at— | 1871. | 1870. |
|-------------------------------------|-----------------------------------|-----------------------------------|---|-----------------------|---------------------|
| New Orleans bales Mobile Charleston | 25,473 4,531 2,614 7,966 | 19,251 4,041 2,655 6,181 | Floridabales. North Carolina Virginia | 206 1,239 5,994 | 177 887 2,163 |
| Savannah Texas Tennessee, &c | 7,300 | 5,986 | Total receipts | 64,156 | 44,574 |

The exports for the week ending this evening reach a total of 83,987 bales, of which 65,364 were to Great Britain, 3,391 to France and 15,232 to rest of the Continent, while the stocks as made up this evening, are now 529,177 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us from the various ports to-night:

| all all the contract of | | ted to- | Total this | Same w'k | Sto | ck. |
|---|---------|-------------------------------------|--|--|--|---|
| Week ending April 14. | G. Brit | Contin't | | 1870. | 1871. | 1870. |
| New Orleans Mobile Charleston. Savannah Texas. New York. Other ports. | 1 944 | 10.968 2,750 4,467 438 | 33,033 18,369 4,036 2,905 1,944 23,169 531 | 34,038 1,000 5,241 2,562 6,210 | 216.208 42,750 17,313 51,501 57,415 108,000 36,000 | 159,688 51,897 17,094 45,425 27,854 53,000 25,000 |
| Total Total since Sept. 1 | | 18,623 557,594 | 83,987 2,458,608 | 49,051 1666,261 | 529,177 | 879,958 |

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 34,936 bales, while the stocks to-night are 149,219 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to April 7, the latest mail dates. We do not include our telegrams to-night, as we cannot insure the accuracy or obtain the detail necessary by telegraph.

300 April for 300 August, even terms.
30. April for 300 August, even terms.
30. Paid to exchange 200 May for 200 April.
WEATHER REPORTS BY TELEGRAPH.—Unsettled, rainy weather appears again to have visited a large section of the South. From appears again to have visited a large section of the South. From different points our telegrams state that the rains have been excessive, and are injuriously interfering with crop work. This is reported to be the case at Memphis, where it has rained two days, and also at Columbus and Augusta, where there has been the same number of rainy days this week. At Macon it has rained three days and the weather is still unsettled, at Charleston one day, and at Selma an unusually severe storm is reported. On the other hand our correspondent at Nashville says that planting is progressing finely in that vicinity, and from Galveston our telegram states that the plant is well up. The Thermometer has averaged during the week at Charleston, 71; at Macon, 74; at Columbus, 69; at Mobile, 68; at Selma, 67; at Galveston, 70; and at Memphis, 63.

THE NEXT CROP.—There are some points established with regard to the next crop which are very satisfactory.

1. There has certainly more corn and breadstuffs been planted throughout the South this year than last year. We hear this from almost all our correspondents, and think there can be no doubt of it. It is not simply true of limited districts aut is nearly if not outte universal.

2. The expense of putting the cotton crop into the ground has been much less than last year. This has arisen from the necessities of the planter. He has had neither the money nor the credit to do otherwise. As a consequence very much less has been spent

to do otherwise. As a consequence very much less has been spent for fertilizers.

3. Bacon, ham, and all "hog products" are now from 3@4c per pound lower than they were last year at this time, and the market for products of this description has at present a downward tendency, whereas a year ago it had an upward tendency.

4. These three facts, together with the further one (which is only true to a limited extent, however.) that better terms have been made with the freedmen, ensure, we think, a cheaper cotton crop than any since the war. It is hardly necessary to say that "hog and hominy" enter very largely into the price of cotton, and with these articles low the cost of the crop to the planter will be very materially reduced.

Gunny Bags, Bagging, &c.—The market for cloth continues very quiet, and no great improvement is looked for immediately. The present prices here and in Calcutta show no profit to the importer, and it is thought that thereis likely to be a falling off in the shipments on the other side. We quote East India 18@18.c., and Domestic 19½@20c. The only sale since our last is 100 bales Borneo to be delivered in New Orleans at 20c., currency. Bags are excessively dull, and merely nominal in price; we quote 15@15½c. Hemp has ruled quiet most of the time, and with liberal arrivals prices gave way a fraction, but close again steady, with the advance tully recovered. Sales are 1,500 bales from store at 9½c., gold, for Manila, and at the close to-day 500 bales X "Glenlyon" at 10c., 30 days. Jute has ruled very quiet. We have heard since the date of our last, though sold previously, of 1,000 bales on private terms. Jute Butts are in better supply, but rule pretty steady. The business is 350 bales at 4@41-16c., currency, 500 bales at 4c., currency, and 100 bales at same price, closing steady.

Movements of Cotton at the interior ports—receipts and shipments for the week, and stock to-night and for the correspond.

give the movements of cotton at the interior ports—receipts and shipments for the week, and stock to-night and for the correspond-

GOLD, EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between 110\frac{1}{2} and 110\frac{2}{3}, and the close was 110\frac{3}{2}. Foreign Exchange market is strong to-day. The following were the last quotations: London bankers', long, 109\frac{2}{3}\empty(2)10; short, 110\frac{1}{2}\empty(2)10\frac{1}{3}, and Commercial, 109\frac{1}{2}\empty(2)10\frac{2}{3}. Freights closed at 5-16\frac{1}{2}\frac{3}{2}. by steam and \frac{1}{3}\empty(5)-16d. by sail to Liverpool.

BY TELEGRAPH FROM LIVERPOOL.-

LIVERPOOL, April 14, 5 P. M.—The market has ruled dull to-day, with sales footing up 10,000 bales. The sales of the week (three days) have been 47,000 bales, of which 7,000 bales were taken for export and 2,000 bales on speculation. The stock in port is 813,000 bales, of which 479,000 bales are American. The stock of cotton at sea bound to this 1 ort is 510,000 bales, of which 320,000 bales are American.

BREADSTUFFS.

FRIDAY P. M., April 14, 1871.

The markets for Flour and Grain the past week have been variable in tone, though the fluctuations in prices have been inconsiderable. The close, however, is pretty uniformly in favor of buyers.

The receipts of flour have continued moderate, but there has been little done for Europe, and except for the West Indies the export demand would be hardly worth referring to. The West India orders have been mainly for grades worth \$7@7.25, and have been partially filled with Southern flours. The shipping extras from Spring Wheat close somewhat nominal at \$6.50@6.75, with helders seeking bids. The trade demand has been fair, and the Minnesota brands have brought very full prices. Rye flour has declined 25c per bbl., and corn meal has ruled very dull. At to-day's market, good lines of shipping extras from Spring Wheat sold at \$6.65 delivered, but the bids were generally limited to \$6.60, which sellers were unwilling to accept.

The wheat market shows very little change. Receipts have been moderate, and foreign accounts have reported an advance; but a disposition to realize and the scarcity and higher rates of ocean freights have operated to prevent any general advance,

although rather more money was paid in special instances. We shall be in receipt of large supplies by canal the first week in May. To-day, under dull private advices from Europe, the market showed weakness, leading to a moderate business for export at \$1 58 for new No. 2 spring in store, and \$1 65 for amber winter

Corn has declined under liberal receipts by rail, reduced bids from shippers, and an advance in ocean freights. But at each concession buyers took hold freely. The sales of Western mixed at 75@76c were very large, and to-day, with better accounts from abroad, there were large sales, including yellow at 77½c, and mixed at 77c, but the close was about 761c. There are large quantities of corn coming forward, but the wants of buyers seem to be very great.

Rye has been dull and drooping. Barley has been closing out freely at very full prices. Oats have been dull, and the late advance has not been fully sustained. Prime mixed Western sold in store to-day at 651c.

The following are the closing quotations:

GROCERIES.

FRIDAY EVENING, April 14, 1871.

The calculations of the Trade have again been somewhat disappointed, the volume of business proving smaller than usual for the season, and indications of an improvement thus far amounting to indications and nothing more. As a rule, however, we find holders but little inclined to lose confidence in the future owing to the almost certainty of exhausted supplies in the interior, the near approach of the general resumption of canal navigation and consequent lower freights, and the fact that many goods are now down to about the cost of importation. Buyers are not expected to depart from the caution so long shown, but their actual wants, it is thought, must make a considerable impression upon the accumulation. Our cereals must also begin soon to reach the seaboard freely and the money realized on these is likely to be partially expended on foreign goods for return freights.

The entries direct for consumption, and the withdrawals from bond, showing together the total thrown on the market for the

| week, were | as lon | lows | | | | | | |

TEA.

The impression among some of the leading brokers is that Greens are a little nore steady, that Oolongs have about touched bottom, and that Japan not much is said in favor of the latter grade and they are somewhat doubtful. At the best, however, the market is only a nominal one and exact quotations are for the present difficult to decide upon. Jobbers have bought to some extent but without freedom and in no case beyond actual wants and business generally has continued in the same slow state so long noticeable with little prospect of improvement until Congress adjourns, as there is plenty of evidence to indicate that country buyers are afraid of some change in the tariff and are determined not to operate until they are sure of the rate of duty. The amount of stock on sale continues fair and the assortment good. Sales of 6,650 pckgs Green; 1,300 pckgs. Oolong; 1,950 pckgs. Japan. The auction sale on Wednesday was neglected by the leading members of the trade, and the process obtained were low. The following is the range: On Japans, 56% prices obtained were low. The following is the range: On Japan 76%c.; Gunpowder, 71c.@\$1 15; Imperial, 37c.@\$1 02%; Young Hyso \$1 02%; Hyson, 43%, 662%; Twankay, 33%, 636%, and Oolong 44%, 653%.

The imports this week consist of an arrival of 485,583 pounds of Green Tea, per "Nellie Abbott," from Shanghae.

The following table shows the imports of Tea into the United States (not including San Francisco), from January 1 to date, in 1871 and 1870:

| 1871 1870 | Black. 6,854,400 8,902,238 | Green. 10,564,553 8,623,852 | Japan. 4,389,274 2,951,960 | Total. 21,908,227 20,478,049 |
|--------------|----------------------------------|-----------------------------------|----------------------------------|------------------------------------|
| 1870 | | | | 20,478,049 |

The indirect importations, including receipts by Pacific Mail steamers: Aspinwall, have been 8,495 pkgs. since January 1, against 15,399 last year. Treceipts of Tea overland by railroad have this week amounted to 6,306 pkgs

COFFEE.

The general position remains much the same as noted for a week or two past, buyers coming forward only as forced to through actual neces business moving in a sluggish, uncertain manner, with values naturally slack and frequently so very uncertain as to render quotations little better than use less. The fear of some political trickery by which the duty will be changed is undoubtedly keeping a great many buyers back, and the impression in the market is that no activity can be looked for until the adjourn Some holders, however, look upon the prospects as rather brighter, and insist that a quick call is now likely to spring up at any moment in view of the opening of inland navigation, and the lower rates of freights and the almost certainty that the supplies of interior dealers are much reduced. Of Brazils the accumulations have increased somewhat, and the call has been very light notwithstanding a further modification of prices, and even at the decli tone is somewhat slack, though importers assert that they are offering below the cost of goods, and cannot reasonably be expected to make further The fine grades still embrace the principal portion of the supply, and this gives ordinary relatively the firmest tone by 1/2c. per 15. There have been some negotiations on Java in view of recent favorable foreign advices and prices commence to strengthen. West India styles dull and slow throughout with stocks slightly increasing, but holders at the close were a shade firmer in view of a better movement from second hands. Sales of 11.025 bags Rio: 2.500 bags Laguayra; 367 Costa Rica; 150 Mexican; 15,000 mats Java, since res 3,500 bags Maracaibo, second hands; 350 bags St. Domingo; and shipments of 2,075, the latter from first hands. Also, 4,000 bags Rio at Hampton Roads to go to Baltimore; 9,943 bags Rio at Baltimore, and 3,200 at New Orleans. At the close we learn of sales at Boston of some 12,000 mats Java per Rocket. This reduces the stock in first hands throughout the country to 15,251 mats, the cargo of the Knight of Snowden, and infuses a much stronger tone to the mar-In fact, on all grades there are evidences of a more healthy feeling, and holders are quite hopeful.

Imports this week have included 7,290 bags of Rio, per "A. Prendergast and "Brother's Pride;" 312 do. Laguayra, per "Jeune Adolphe;" 2,75 do. St. Domingo, per sundry vessels; 310 do. Savanilla, per "Lottie Wells;" 1,332 do. Jamaica, per "Mary H. Banks," and 693 do. sundry, per steamer "Rising Star," from Aspinwall.

SUGAR.

The market for Raws has been somewhat unsettled and at times quite doubt. ful, but on the whole the tendency was rather toward a lower range and values were somewhat modified. Refiners have found the sale of their product fair and have bought stock in proportion thereto, but seldom if ever exceed the wants of a few days and were met by a more liberal offering. Importers do not look upon the future of the market with any but the most confident feelings, though for the present it is necessary to give way some that under the natural depression consequent upon accumulating stocks liberal offerings from pier and comparatively full receipts present and prospective. Nothing as yet fairly indicates the probable wants of the interior, but it is supposed that supplies must be pretty nearly exhausted and the first call to restock likely large, buyers now holding off for an adjustment of Summer freight tariffs, and the full opening of navigation. Operators are as usual probable as the probable special on a dull market somewhat apart in their views of grading, but the irregularities apparent on the first arrival of the new crop have nearly all disappeared. Refined goods have met with an unsettled demand, but large enough in the aggregate to prevent the accumulation of any surplus stock and value pretty well sustained on most grades. Grocers have bought quite freely of the common sorts for retail distribution in place of raws. The general recloses with a pretty firm tone owing to indications of a quicker call from sources. Sales of 6,915 hhds. Cuba; 1,125 hhds. Porto Rico; 300 hhds. Demerara; 156 bags Laguayra; 5,986 boxes Havana, and 372 Melado.

MOLASSES.

Business in foreign grades still has a dull appearance, rather more so than Business in foreign grades still has a dull appearance, rather more so than usual for the season, but prices are without variation and the position may be called steady. In fact there has really been no change in the market for the past three or four weeks, buyers coming forward when actually in need of goods, and paying full prices for desirable assortments; but present exigencies provided for, there was an immediate withdrawal of all bids. The good to prime greery, descriptions in jobbing lots and fine boiling stock by cargo, are the only kinds sought after, distilling qualities finding no outlet. Domestic is in very large stock, and all that is here is available on comparatively easy terms, but holders are cautious not to resort to any undue pressure, as extremely low very large stock, and all that is here is available on comparatively easy terms, but holders are cautious not to resort to any undue pressure, as extremely low prices must in that case be accepted. Sugar House Molasses in moderate demand and weak at 17c. in hhds. and 21c. in bbls. Sales of 45 hhds. Cuba Muscovado; 130 hhds. Cuba clayed; 300 hhds. Porto Rico; 425 hhds Barbadoesi 320 hhds. St. Croix, and 550 bbls. New Orleans.

The receipts at New York, and stock in first hands, April 13, were as follows:

SPICES.

The jobbers have been doing some little business on nearly all grades, and The jouers have been doing some fittle outside former prices were obtained without much difficulty. Still no advance is reported, as buyers do not evince without meet unicity. State as a way and a separate, as supported, as a support and a support a support and a support a support and a support and a support a support a support a support a support a support a supp voices the movement has been quite moderate, the distributors in a small way having already become fairly stocked, and advices from abroad, though encouraging, falling to stimulate any speculative feeling. At the outports there has been a little doing, the leading sales embracing about 1,000 piculs Singapore Pepper at Boston, per Natier and Jungfrau.

FRUITS, &c.

There is a little more doing in Foreign Dried than at the date of our last report. The jebbing trade, however, is light, and dealers are not willing to stock up, and bring only in a small way, as their wants require. Importers generally look for a revival of trade and an advance in prices, but still to make sales at present, are obliged to accept buyers prices for most articles. The purchasing of Layer Raisins by an importer have apparently subsided and they are very dull jobbing at \$2.75. Prunes are very heavy and favor the buyer. Currants sell slowly at the late decline. Sardines move very slowly at lay are very dull jobbing at \$2.75. Prunes are very neavy and favor the bayer. Currants sell slowly at the late decline. Sardines move very slowly at prices showing no quotable decline but which are not very firm. Citron is firm and in fair demand. Nuts of all kinds are rather quiet but rule at about

am and in fair demand. Nuts of all kinds are rather quiet but rule at about former prices. Fire Crackers have moved quite freely but close rather easier. Foreign Green box fruit sell fairly and although in good supply rules steady in price. At the auction sale to-day Messina Oranges sold at \$2 00@3 95 per box; do. Lemons, \$4; Palermo Oranges \$2 50@\$ 25 per box, and do. Lemons \$3 00@4 25 per box. West India Oranges have nearly all come in for this season. Bananas are becoming plenty, but sell well; Baracoa at \$1 50@\$ 100 per bunch and Aspinwall at \$2 52@3 50 per bunch. Coccannuts are in fair demand \$30 per; thousand for Baracoa and \$50@55 for Carthagena. Pine Apples are beginning to come in more freely; they sold at \$15 per ples are beginning to come in more freely; they sold at \$15 per adred for Nassau Red.

hundred for Nassau Red.

Domestic Dried have ruled very quiet for all descriptions. Apples are heavy and although there have been no sales of moment, at a decline to sell at all freely lower prices must be accepted. Blackberries are not plenty but sell only in small lots at about former prices. Cherries and Plums are quiet. Peanuts hardly so firm but a little more active.

Domestic Green are in small demand for apples for city use and for the best kind full former prices are realized. Cranberries are dull and favor the buyer although at present are very cheap; the supply is large.

Cubs Sugar.—HAYANA, Wednesday evening, April 5, 1871.—CLAYED.—
the demand noticed at the date of our last has become a little more active
uring the past few days, owing principally to the receipt of further favorable
licked from the United Stars and some desire to dispatch vessels before the
robe for No. 18, common train. Little has been done for the North of
urope, where the principal markets continued quiet at last accounts. The

market closed quiet to-day, but firm at quotations. Complaints of a heavy decrease in this year's crop continue to be received from every producing place on the Island; and there is not, we think, one estate which can boast even of an average production. Many of them have had a decrease of between Molasses Sucars,—We have no change to report in these sorts of Sugars, which are held very firm.

Centrification—The transactions effected since our last do not amount to much, and we continue quoting as per last sales.

Muscovadoes.—In good demand and under very short supplies. We quote almost nominally—833/1s. for inferior to fair Refining; 9699/srs. for good fair to good do. Superior descriptions continue scarce, and bringing fancy rates out of the limits of quotations.

Shipments this week from Havana and Matanzas have been as follows:

THE DRY GOODS TRADE.

There has been a fair jobbing trade done during the past week the demand being chiefly from Western and near-by dealers who were making their first purchases or replenishing stocks laid in earlier in the season. The Southern trade has been light, though there has been some demand from dealers in that section for assorted lots, and, as compared with the West and localities near this city, the retail distribution in the South appears to be active. The demand from consumers in the interior generally is reported backward, and dealers are deferring their purchases in conse. quence, but we note a moderate improvement in the demand from small dealers since our last report, and the smaller jobbing houses are doing a better trade. There have been no important changes in the market since our last review, and the general list of quo. tations is well maintained, though jobbers are said to be cutting agent's prices on many fabrics, as an inducement to buyers. The sales from first-hands, during the week, have not been large excepting of staple cotton goods, which are in good request and are, in some instances, sold to arrive.

DOMESTIC COTTON GOODS.—Fine grades of brown and bleached goods continue in fair request and the most favorably known makes are sold close to the production. Medium grades are, also, fairly active, while low grades are slow of sale but are firmer than at the time of our last report. Prices are generally steady on the best grades, though some of the heaviest makes of bleached cottons are said to be quiet and not very firmly sustained. Prints are in good request and stocks are light, which, with the advance in cloths gives firmness to prices, and on two or three grades an advance has occurred, as will be seen by our quotations. Cambrics are also very firm and the agents for goods which are sold to arrive contemplate an advance on rolled. Colored Cottons are selling more freely at the revised quotations and prices are steady,

DOMESTIC WOOLEN GOODS.—Light weight cloths have not sold very freely first hands, but the jobbing demand has been rather more liberal and aggregates a fair amount. Castors are selling freely to jobbers and clothiers, at prices about 25c per yard higher than were current last fall. Fine light weight Cassimeres are in good demand and agents are well sold out. Medium and low grades are jobbing to some extent, but the demand is chiefly from small buyers. In heavy weights these grades are selling freely to clothing manufacturers and jobbers. Light woolen fabrics are in fair demand for current distribution and no noteworthy changes are reported in any line. Shawls sell freely, and the best styles are well sold out, several brands being sold to arrive at an advance of 25c on the opening prices.

Foreign Goods.—The trade in foreign fabrics has been irregular but aggregates a fair amount both with importers and jobbers. Dress Goods have sold fairly to the retail trade and sales are effected from first hands of such amounts as are required to maintain jobbers' assortments. Linens are jobbing well but are quiet in first hands. Silks continue in good request, though gros grains are not selling so freely as was noted a few weeks since-There is a good trade in progress in Japanese silks at prices considerably above those current at the opening of the season, and holders are very firm on the comparatively light stocks remaining in the market. Millinery silks and ribbons are in better demand, and sales through the auction houses are readily effected at advancing prices on all desirable numbers.

The exports of dry goods for the past week, and since January 1, 1871, and the total for the same time in several previous years are shown in the following table:

| | | PROM NEW | | | PROM BOSTON |
